

7.18. Project table

In order to browse project data click “Projects” on OCLanguage management panel.

In project table the user can filter the data by using Search option – type in letters or digits to filter projects.

Project table is very flexible in terms of tailoring the selected data according to the translation agency needs. Any column can be removed or edited up to translation agency request to developers of OCLanguage.

Project table consists of the following columns.

Column name	Description
Project	Project number
Project name	Project name
Deadline for Customer	General deadline of the project (for the Customer)
Internal deadline	Project deadline (for the translation agency)
Type	Translation project type – written/oral
Status	Project status (maintained in general project data)
Customer	Customer name
Manager	Project responsible manager name

In order to improve the usability of the project management table, the user can use easily add or remove columns that it needs for working with project management table. The system will memorize users choice and supply the user with selected project table outlook every time, when the user logs in into the system.

The screenshot shows a web application interface for managing projects. At the top, there are navigation icons (hamburger menu, mail, bell) on the left and user information (English language, Karlis) on the right. The main heading is "Projects" with a breadcrumb "Main > Projects". Below the heading are two buttons: "Delete" (red) and "Add project" (green). The main content is a table with the following columns: Project, Project name, Deadline for Customer, Internal deadline, Type, and Status. The table contains four rows of project data. A dropdown menu is open on the right side of the table, showing a list of columns that can be selected or deselected. The dropdown is titled "sia ocl" and has a grid icon. The list includes: Project, Project name, Deadline for Customer, Internal deadline, Type, Status, Customer, and Manager. All items in the list are checked.
